SAY CURE IS MIRACULOUS.

The Transite Parelysis.

Burlington, N. J., August 9.—Medial authorities here pronounce as almost miraculous cures that have been rought in six cases, once pronounced opeless, of infantile paralysis. Four t the children are said to be able or the children are said to be able to walk and the others have nearly reached a normal condition.

The doctors give credit for the re-markable cures to Miss Lillian Balz, a trained nurse in charge of the Friendtrained nurse in charge of the Friend-ly Society work in this vicinity. In each case the lower limbs of the children were said to be surunken, twisted and useless, and doctors said children were said to be sirunken, twisted and useless, and doctors said they saw nothing in prospect except lifelong helplessness if the little victims escaped early death, Miss Balz wrought one cure, and the other cases were then placed under her charge. External applications and massago, the doctors say, displaced internal remedies in her treatment of the cases, and the value of the treatment has been so thoroughly demonstrated that each individual case will be brought before the State Medical Society at its earliest meeting. Miss Balz spent some years in studying juvenile maladies of this nature, and the demonstration of her theory seems likely to revolutionize the treatment of infantile paralysis, according to the opinion of local physicians.
